Identidad Propia. Notes and Suggestions for Flamenco Guitar Composition by Carlos Lederman.

Identidad Propia is a summary of ideas and suggestions for those who are concerned about creating their own style in this complex but exciting way to make music.

It is not neither does it pretend to be a method or an instruction manual, as the intention is to offer some tools and resources that we could name as "trick" which enable everybody to search for and, hopefully, find their own creative vein and, this way, elaborate a personal proposal as the best maestros of flamenco guitar already did.
